

6.0 Health

6.9 Severe Weather Policy

During the winter months the weather is very changeable and often unpredictable. Keren's Nursery makes every effort to maintain its scheduled opening hours despite adverse weather.

Historically we have experienced some treacherous weather conditions in our area with public transport seriously affected. This has affected the nursery as staff struggle to get to work on time and sometimes cannot attend at all.

On these occasions the nursery may have to open late or close early to allow families and staff to reach home / work safely. Consequently, at times without appropriate staffing we will be unable to operate.

Any changes to normal hours will be sent to staff and parents / carers by texting or email or by phone. We will make every effort to do this as early as we can but please note that morning notifications may not be available until 8-9am. Early closures will be notified in the same manner.

To enable us to text/email parents we will ensure to keep updated with any new mobile numbers or email addresses of parents.
